My New Book

You can download the first chapter of my new book. [Click to download.](#)

Find the book on [Amazon USA](#) or [Amazon India](#)

If you purchase a copy – please write a review on Amazon.

Hidden comment in the cell

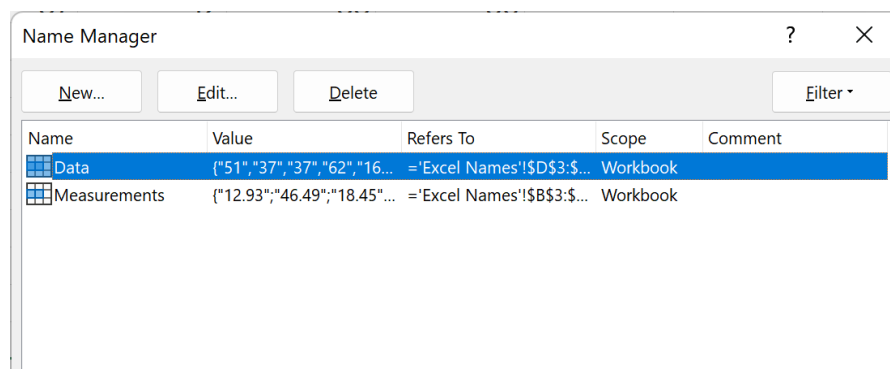

You can have **hidden** a note or a comment in the cell itself using the netter N.

| | A | B | C | D | E | F | G | H | I |
|---|-------------------|---|---|--|---|---|---|---|---|
| 1 | | | | | | | | | |
| 2 | 11/30/2022 | ← | | =TODAY()+N("This function for a date - that changes when you open the file") | | | | | |
| 3 | 11/30/22 10:28 AM | ← | | =NOW()+N("This function for the time - that changes when you open the file") | | | | | |
| 4 | | | | | | | | | |

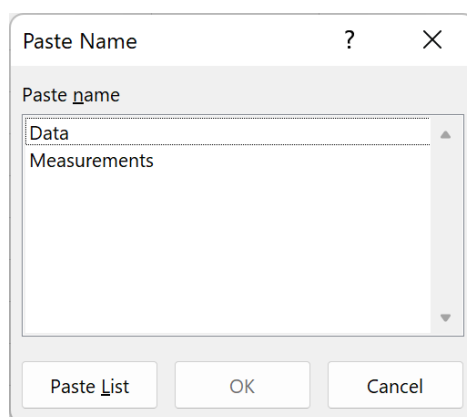

Where are the Excel Names on the worksheet?

You can find your Excel-names on a sheet in a number of ways.

1. Go to Formulas and click on the Name-Manager OR use CTRL+3. You will see the name manager menu with all the names whereabouts.

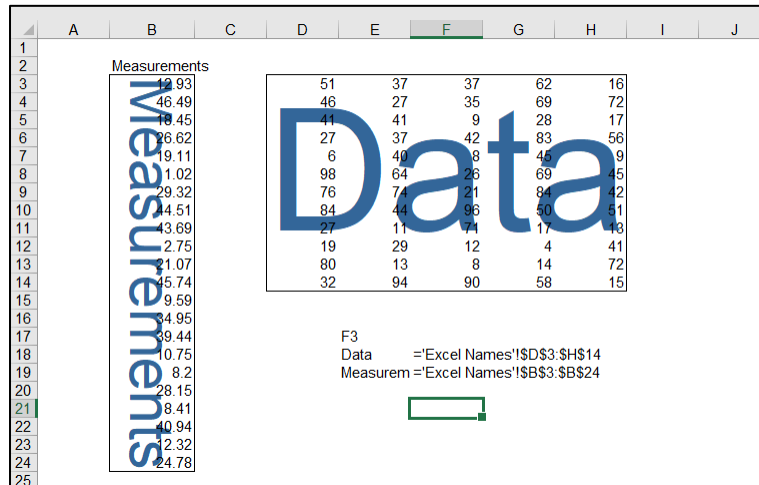

2. Use F3 and on the Paste name menu click Paste List:

This will be the result:

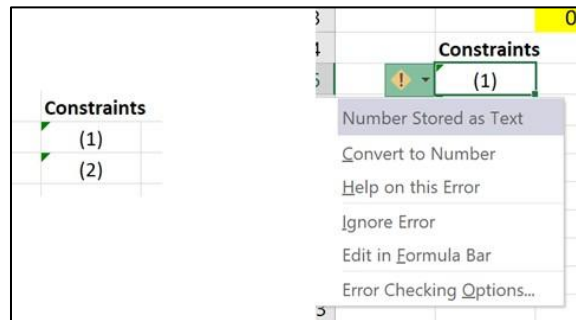

| | |
|--------------|-----------------------------|
| Data | =Excel Names!\$D\$3:\$H\$14 |
| Measurements | =Excel Names!\$B\$3:\$B\$24 |

3. Zoom down your sheet below 40% and you will see all the names.

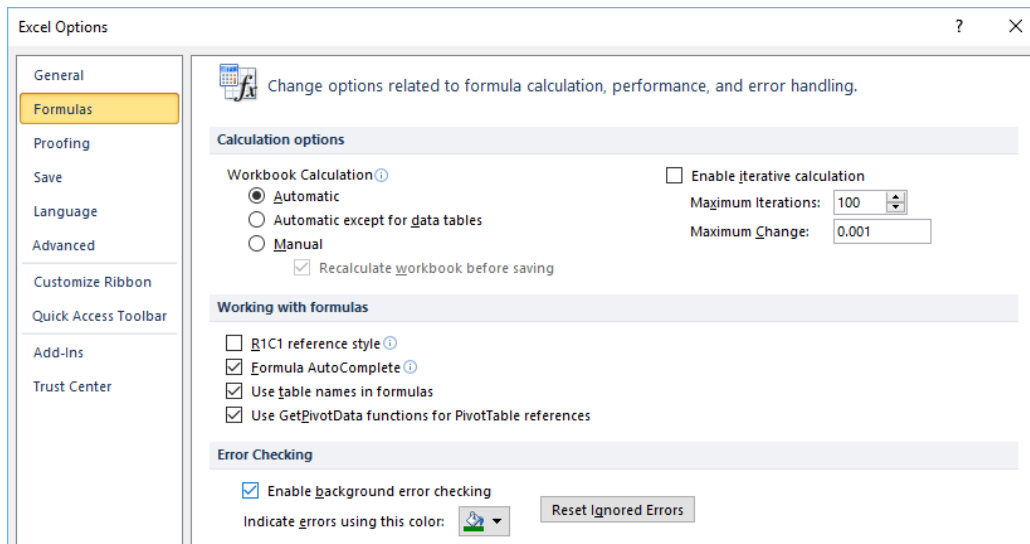

How to get rid on the error notifications?

When you get these error notifications as you see here.

You can go to File>Options>Formulas and get this menu:

To change the error marker color, in the Excel Options dialog box (Formulas category):

Beside Indicate errors using this color, select an alternate color from the color menu.

Click OK.

You can also uncheck the check sign and you will not see these messages anymore.
